Instructional Materials

Instructional materials for your program can include:

- Digital Presentation Files
- Audio and Video CDs and DVDs
- Diagnostic Tools
- Handheld Tools and Instruments
- Instructor's Guides
- Interactive Multimedia Presentations
- Program Scripts
- Student Workbooks
- Training Aids
- Websites

We use the latest developments in computer hardware and software technology to create finished documents, artwork, and presentation media for your program in the quickest and most cost effective way.

Brilliant Images

Masters of program materials are provided on your selected storage media as required. Programs may include original or stock images, illustrations, graphics, audio, and/or video. When required, we can arrange for foreign language translations, digital photography or videography, camera ready mechanicals or films, and complete printing and production services.

We also have access to a wide variety of previously published training materials which can be purchased or licensed for use as part of your custom program.

On-Site Presentations

Innovations PLUS can provide personnel for on-site presentation of your custom training program. Whether you need training for your internal Trainers, or for your entire staff, we can arrange for the resources necessary to meet your requirements.

We also offer predesigned on-site seminars and training programs on many of the topics listed at left. Please call us to check on current availability and to discuss your training program requirements in detail.

For more information on our complete range of products and services, please visit us on the web, call, or write...
